B. REQUEST FOR QUOTATION FOR SATELLITE VEHICLE TRACKING AND THEFT ALERT DEVICES, MONITORING, SERVICES INSTALLATION AND DEINSTALLATION, REPAIRS AND MAINTENANCE FOR A THREE (3) YEAR CONTRACT PERIOD

1. BACKGROUND TO SANSA

The South African National Space Agency (SANSA) has a mandate, as outlined in the South African National Space Agency Act, 2008 (Act No 36 of 2008), to co-ordinate and integrate national space science and technology programmes and conduct long-term planning and implementation of space-related activities in South Africa, for the benefit of the citizens of South Africa

2. SCOPE OF WORK (TERMS OF REFERENCE)

SANSA has a requirement for vehicle tracking devices and theft alert systems for six (6) vehicles that make up the vehicle fleet for the Space Science programme and Hermanus Facility. Two (2) vehicles operate in high risk areas and across the South African border in the neighbouring countries. The remaining four (4) vehicles require only the basic theft alert devices, which are activated by the service provider upon notification by SANSA or authorised driver(s).

The above installations and monitoring services are required for a **three (3) year contract period**.

The services required will include but not be limited to the following:

- The successful bidder must install the Vehicle Tracking systems and/or theft alert devices and sign a three year contract (SLA) with SANSA within two (2) weeks after appointment
- Device installations must be done on the SANSA premises in Hermanus, Western Cape
- Transfer, de-activation and/or de-installation of above-mentioned devices in cases of written-off vehicles, disposal and termination of contract
- Active tracking and monitoring of specified vehicles 24 hours per day 7 days per week
- Full access to relevant reports on the suppliers web-based Fleet Management system
- Replace, maintain and upgrade installed devices so as to ensure full functionality at all times
- Transfer device from current vehicle to new vehicle if a vehicle is replaced during the contract period
- Liaise with SANSA's Project Manager during the roll-out on all project activities
- Report/send alert on device malfunction/error and vehicle activities at all times
- Backup and restore device data to support business continuity
- Storage and download of all cross-border data on request
- Training of SANSA personnel on use of Fleet Management reporting system
- Upgrade of outdated devices and reports system to be done with prior approval from SANSA Project Manager

- Certify installation and training completion before the cut-off date
- All devices must be compliant with industry standards for insurance purposes

NOTE: The prospective service provider must include/indicate anything he/she supposes to be an omission to the above in his submission so that the service will be provided to industry standards. **Care must be taken not to damage vehicle electrical circuits, electronic circuits, interior paintwork, exterior paint work and other components of vehicles during installation.**

2.1 TRACKING DEVICE SPECIFICATION

- GPS (Global Positioning System) technology for locating vehicles
- Each device must have a Unique Reference Number (URF)
- Proof to be provided by bidder that the tracking system is fully functional in neighbouring countries and over the whole of South Africa
- Devices must capture GPS location information and vehicle information at regular intervals (supplier to specify) and transfer data to a central secure server
- The device must be fitted into the vehicle in an obscure position and in a manner that does not interfere with manufacturers' warranties, is non-detachable and difficult to tamper with
- The device must allow unlimited tests and searches for GSM device operation
- The device must have a back-up battery and immediately report malfunction of this battery
- The device must continuously monitor the vehicle battery state. This must be clearly indicated as a feature of the device
- The device must allow for remote immobilization
- The device must allow for remote software upgrades
- The device must be able to send e-mail and/or SMS alerts on any configured violations
- A panic button or warning system which allows the driver to signal his need for urgent response from the service provider in emergency situations

2.2 APPLICATION SPECIFICATION

- Web-based fleet management software
- Location-based services (Stolen Vehicle Recovery)
- Configure SMS and/or email notification
- High risk area and border proximity notification
- Over-speed notification
- Harsh breaking notification
- Tow notification
- Ignition on/off notification
- Status of vehicle including speed, location and start/stop
- Trip playback facility
- Satellite and geographic location maps
- Extensive scheduled and on demand reports (supplier to specify available formats)

C. EVALUATION CRITERIA

SANSA promotes the concept of “best value” in the award of contracts, as opposed to merely looking for the cheapest price, which does not necessarily provide the best value. Best value incorporates the expertise, experience and technical proposal of the organisation and individuals who will be providing the service and the organisational capacity supporting the project team.

SANSA is committed to achieving Government's transformation objectives in terms of the Preferential Procurement Policy Framework Act.

The value of this bid is estimated not to exceed R1 million (all applicable taxes included) and therefore the **80/20** system shall be applicable.

Please Note: the above amount (R1 million) is not the budgeted amount for this project, but it is the Treasury threshold for written price quotations.

The procedure for the evaluation of responsive tenders is **price** and **preference** method. The evaluation of the bids will be conducted in the following two stages:

- Firstly, the submission will be evaluated to confirm if it meets the required scope of work as stated above. A bid will be disqualified if it fails to meet all the requirements for the scope of work.
- Thereafter, only the qualifying bids (meet the scope of work) are evaluated in terms of the 80/20 preference points systems, where the 80 points will be used for price and the 20 points will be awarded to a bidder for attaining the specific goals in accordance with the Table below.

1. Preference

Specific goals for this RFP and number of points are indicated as per table 1 below. Proof of the specific goals below must be attached and submitted with the bid document in order to qualify for the preference points (specific goals).

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.

Table 1: Specific Goals and points

Equity Ownership	Proof of evidence	Percentage owned ³	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)
