1. BACKGROUND TO SANSA

The South African National Space Agency (SANSA) has a mandate, as outlined in the South African National Space Agency Act, 2008 (Act No 36 of 2008), to co-ordinate and integrate national space science and technology programmes and conduct long-term planning and implementation of space-related activities in South Africa, for the benefit of the citizens of South Africa.

South African National Space Agency requests a proposal from an experienced service provider in the analysis and testing of water samples in line with SANS 241/1:2015 for water samples from the Houwteq campus/facility. Water samples need to be tested for human consumption.

The Houwteq AIT facility is located remotely outside of Grabouw in the Western Cape. It receives non-municipal water from a source located approximately 8 km away. There are three pump stations that bring the water to a reservoir on site. Previously the water was treated at an on-site water purification plant which has since been de-commissioned.

B. EVALUATION CRITERIA

SANSA promotes the concept of "best value" in the award of contracts, as opposed to merely looking for the cheapest price, which does not necessarily provide the best value. Best value incorporates the expertise, experience and technical proposal of the organisation and individuals who will be providing the service and the organisational capacity supporting the project team.

SANSA is committed to achieving Government's transformation objectives in terms of the Preferential Procurement Policy Framework Act.

The value of this bid is estimated not to exceed R1 million (all applicable taxes included) and therefore the 80/20 system shall be applicable.

Please Note: the above amount (R1 million) is not the budgeted amount for this project, but it is the Treasury threshold for written price quotations.

The procedure for the evaluation of responsive bidders is price and preference method. The evaluation of the bids will be conducted in the following two stages:

- Firstly, the submission will be evaluated to confirm if it meets the required scope of work as stated above. A bid will be disqualified if it fails to meet all the requirements for the scope of work.
- Thereafter, only the qualifying bids (meet the scope of work) are evaluated in terms of the 80/20 preference points system, where the 80 points will be used for price and the 20 points will be awarded to a bidder for attaining the specific goals in accordance with Table 1 below.
